Looking Ahead to 2026:

Inspiring Futures is entering a stage of growth and scaling in 2026 and we are excited to build together!

Meet Our New Clinical Supervisor

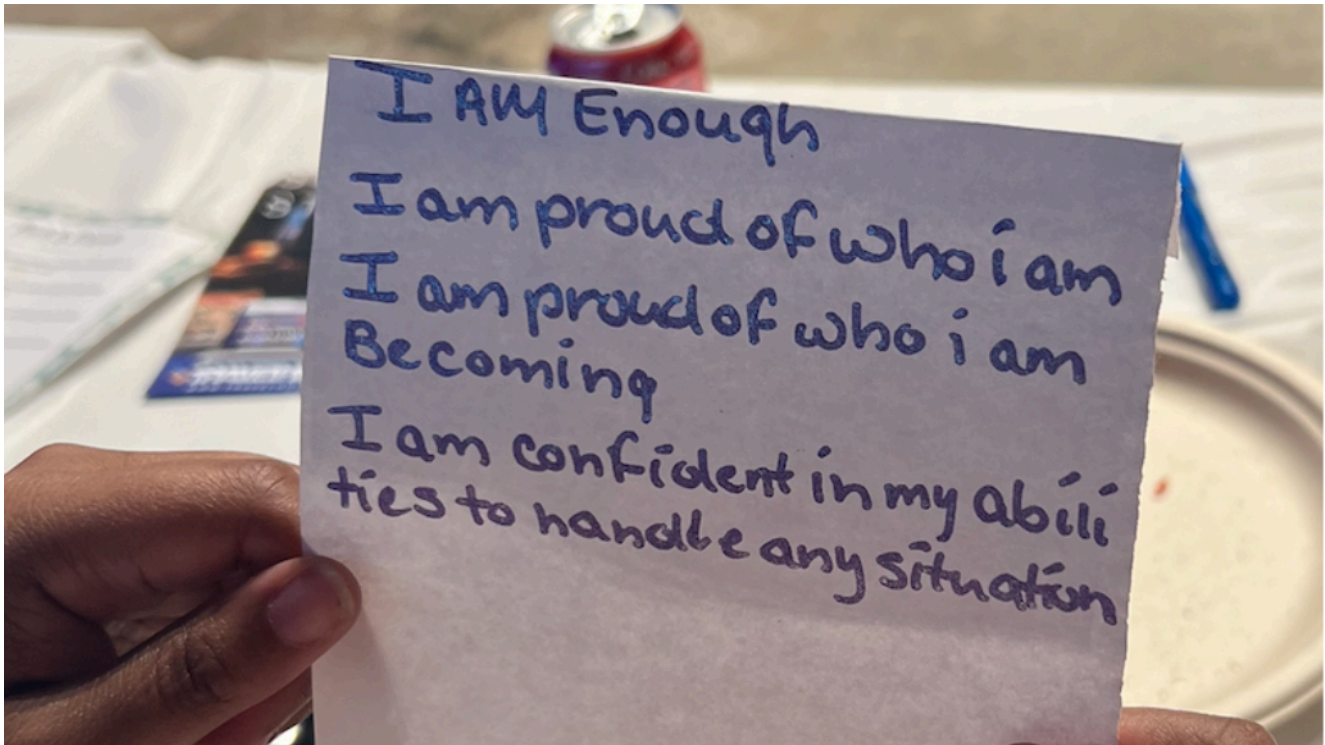

Erica Eaton, LCSW is a dually-licensed clinical social worker who joined as the inaugural Clinical Supervisor. Erica is a seasoned leader with extensive experience across community, hospital and managed care settings. She has served wide-ranging populations including youth, the homebound elderly, the chronically ill/underserved, and trauma-impacted 9/11 survivors. Erica holds a MSW in Clinical Social Work from Fordham University, as well as a BS in Biology/Pre-Med from Howard University.

Promotion to Director of Youth Support Programs

Khadijah "KD" Brockington has been instrumental in the Academic Department growing to host regularly scheduled monthly workshops, starting a Youth Advisory Board, hosting interns, streamlining the emergency funds program, and engaging community through outreach, in addition to all the individual support provided to youth. She joined the team in October 2024 as the Outreach and Academic Coordinator, and is thrilled to expand her role in this new promotion!

We also recently launched monthly in-person wellness events to facilitate community and improve a sense of belonging and wellness. Please see a snapshot of our November Affirmations Box Workshop which included a food bag give-away for all participants!

GRATEFUL

A huge thank you to everyone who donated to our End-of-Year Giving Campaign! We exceed our goal thanks to your generosity! All the money will go towards workshops, groups, our emergency funding program, and youth events. Through the emergency funding program, Inspiring Futures has already supported our program participants with \$17,235 worth of funding for emergency needs this fiscal year (since July 2025) and also provided every youth participant with \$100 gift card for the holidays to help with urgent needs at that time.
