### With two years operating, we are measuring outcomes

For this school year, 94% of our program participants who were enrolled in school will be persisting to the next grade in school or graduating. Of the youth who were not enrolled in school, 10% have already been enrolled, and 30% are in the process of enrolling.

### We also had a successful fundraiser and you can see a highlight video and a youth testimonial below

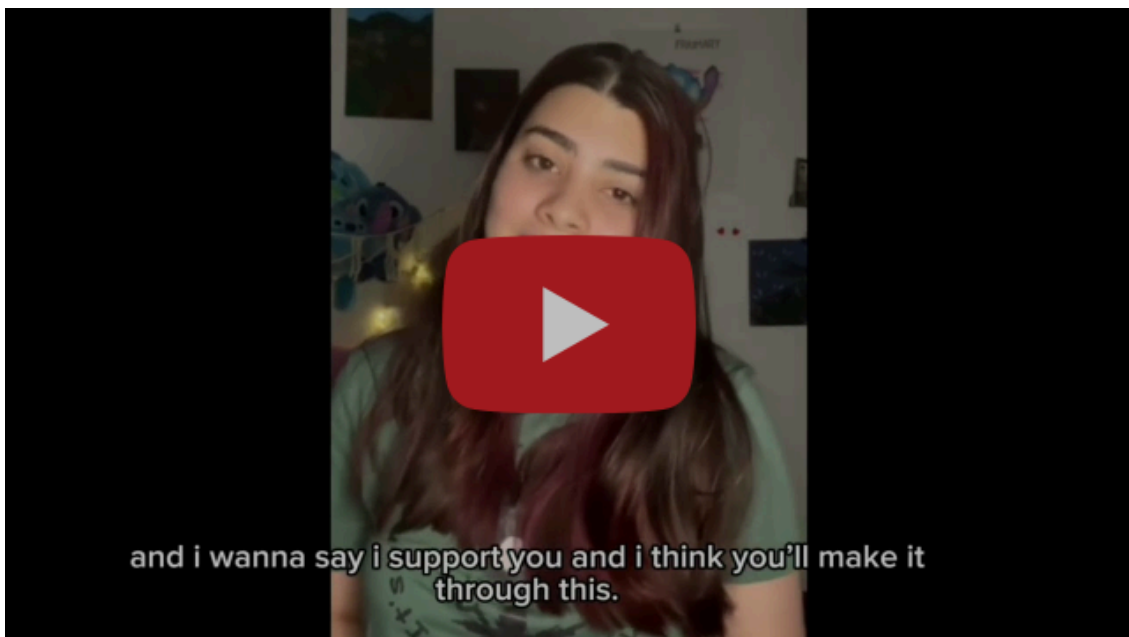

Thank you to everyone that participated and made this event a success.

---

## Youth Testimonial

## Exciting Developments

Inspiring Futures completed the Camelback Ventures Accelerator and Edwin Gould Foundation Accelerator, and our promo video for Camelback will be dropping on June 25, 2024.

As summer gears up we have an Outreach and Engagement Coordinator starting who will be co-designing student workshops and groups alongside young people.

We also have a student Communication internship starting for a young person who will be in charge of social media, newsletters, and other projects.

---

## Thank you to our MSW Interns

**We are grateful to our MSW Interns from Adelphi University, who have completed their internship and been integral to our program. We wish them success in their careers.**

**Kusum Adhikari**
